

Experimental Analysis of Pretensioned CLT-Glulam T-Section Beams

<https://research.thinkwood.com/en/permalink/catalogue1216>

Author: Estévez-Cimadevila, Javier
 Suárez-Riestra, Félix
 Otero-Chans, Dolores
 Martín-Gutiérrez, Emilio

Publisher: Hindawi Publishing Corporation

Year of Publication: 2018

Country of Publication: United Kingdom

Format: Journal Article

Material: CLT (Cross-Laminated Timber)
 Glulam (Glue-Laminated Timber)

Application: Beams

Topic: Mechanical Properties

Keywords: Nontensioned
 Bending Strength
 Stiffness
 Pre-Tension

Language: English

Research Status: Complete

Series: Advances in Materials Science and Engineering

ISSN: 1687-8442

Online Access: Free
