

Improving Thermal Efficiency in Lightweight Construction: Mass Timber as Thermal Mass

<https://research.thinkwood.com/en/permalink/catalogue1915>

Author:	Dewsbury, Mark
Publisher:	Forest & Wood Products Australia
Year of Publication:	2016
Country of Publication:	Australia
Format:	Report
Material:	CLT (Cross-Laminated Timber)
Application:	Floors Walls Ceilings Roofs
Topic:	Energy Performance
Keywords:	Thermal Efficiency Lightweight Low-Rise Mid-Rise Low-Energy
Language:	English
Research Status:	Complete
Series:	Market Access, Project Number: PNA289-1213a
ISBN:	978-1-925213-40-9
Online Access:	Free
