

## Long-Term Behavior of Steel-CLT Connections

<https://research.thinkwood.com/en/permalink/catalogue2080>

Author: Chiniforush, Alireza  
Akbarnezhad, Ali  
Valipour, Hamid  
Bradford, Mark

Year of Publication: 2018

Country of Publication: South Korea

Format: Conference Paper

Material: Steel-Timber Composite  
CLT (Cross-Laminated Timber)

Application: Floors

Topic: Connections  
Serviceability  
Mechanical Properties

Keywords: Long-term  
Load-Slip  
Pre-Tension  
Bolts  
Screws  
Creep

Language: English

Conference: World Conference on Timber Engineering

Research Status: Complete

Online Access: Free
