

## The Influence of Panel Lay-Up on the Characteristic Bending and Rolling Shear Strength of CLT

<https://research.thinkwood.com/en/permalink/catalogue2119>

Author: O’Ceallaigh, Conan  
Sikora, Karol  
Harte, Annette

Publisher: MDPI

Year of Publication: 2018

Country of Publication: Switzerland

Format: Journal Article

Material: CLT (Cross-Laminated Timber)

Application: Wood Building Systems

Topic: Design and Systems  
Mechanical Properties

Keywords: Bending Strength  
Engineered Wood Product (EWP)  
Rolling Shear Strength  
Sitka Spruce

Language: English

Research Status: Complete

Series: Buildings

Online Access: Free
