

## Monitoring Performance of Mass Timber Demonstration Buildings in Ontario

<https://research.thinkwood.com/en/permalink/catalogue2286>

Organization: FPInnovations

Country of: Canada

Publication:

Topic: Energy Performance

Keywords: Monitoring

Vertical Movement

Energy Efficiency

Acoustics

Moisture Management

Research Status: In Progress

Notes: Project contact is Jean-Pierre Martel.

Summary:

Set plans and requirements for monitoring vertical movement, energy efficiency, acoustics, and moisture management in demonstration buildings, and collaborate with the University of Ottawa for measuring structural characteristics of the demonstration buildings
