

Equivalent-frame Model for Elastic Behaviour of Cross-laminated Timber Walls with Openings

<https://research.thinkwood.com/en/permalink/catalogue2417>

Author: Mestari, Mohammed
Doudak, Ghasan
Caola, Maurizio
Casagrande, Daniele

Publisher: ICE Publishing

Year of Publication: 2020

Country of Publication: Scotland

Format: Journal Article

Material: CLT (Cross-Laminated Timber)

Application: Walls

Topic: Design and Systems

Keywords: Computational Mechanics
Structural Frameworks
Timber Structures
Elastic Behaviour

Language: English

Research Status: Complete

Series: Proceedings of the Institution of Civil Engineers - Structures and Buildings

Online Access: Free
