

Experimental Investigation on the Shear Resistance of Existing Glulam Structures

<https://research.thinkwood.com/en/permalink/catalogue2439>

Author: Schulte-Wrede, Michael
 Merk, Michael
 Dietsch, Philipp

Year of Publication: 2019

Country of Publication: Portugal

Format: Conference Paper

Material: Glulam (Glue-Laminated Timber)

Application: Wood Building Systems

Topic: Design and Systems

Keywords: Shear Resistance
 Bending Tests
 Aging Processes
 Drill Cores

Language: English

Conference: International Conference on Structural Health Assessment of Timber Structures

Research Status: Complete

Online Access: Free
