

Energy, Seismic, and Architectural Renovation of RC Framed Buildings with Prefabricated Timber Panels

<https://research.thinkwood.com/en/permalink/catalogue2503>

Author: Margani, Giuseppe
Evola, Gianpiero
Tardo, Carola
Marino, Edoardo Michele

Publisher: MDPI

Year of Publication: 2020

Format: Journal Article

Material: CLT (Cross-Laminated Timber)

Application: Wood Building Systems

Topic: Seismic
Design and Systems

Keywords: Integrated Renovation
Sustainable Renovation
Reinforced Concrete
RC Framed Buildings
Prefabrication
Time Reduction
Cost Reduction
Low-Disruptive Retrofitting

Language: English

Research Status: Complete

Series: Sustainability

Online Access: Free
