

## Behaviour of Mechanically Laminated CLT Members

<https://research.thinkwood.com/en/permalink/catalogue291>

Author: Kuklík, Petr  
Velebil, Lukáš

Publisher: IOP Publishing Ltd

Year of Publication: 2015

Country of Publication: Latvia

Format: Conference Paper

Material: CLT (Cross-Laminated Timber)

Application: Walls

Topic: Connections  
Mechanical Properties

Keywords: Shear Stress  
Torsional Stiffness  
Slip Modulus  
Lamination

Language: English

Conference: International Conference on Innovative Materials, Structures and Technologies

Research Status: Complete

Notes: September 30-October 2 2015, Riga, Latvia

Online Access: Free
