

## Matching Tests of Brittle Failure of Bottom Rail Versus Tensile Strength Perpendicular to the Grain and Fracture Energy in RT and TR Plane

<https://research.thinkwood.com/en/permalink/catalogue380>

Author: Caprolu, Giuseppe  
Organization: Luleå University of Technology  
Year of Publication: 2014  
Country of Publication: Sweden  
Format: Report  
Material: Solid-sawn Heavy Timber  
Application: Shear Walls  
Topic: Mechanical Properties  
Keywords: Tensile Strength  
Fracture Energy  
Language: English  
Research Status: Complete  
Online Access: Free
