

Behaviour of Cross-Laminated Timber Panels Under Cyclic Loads

<https://research.thinkwood.com/en/permalink/catalogue661>

Author: Gavric, Igor
 Fragiaco, Massimo
 Popovski, Marjan
 Ceccotti, Ario

Publisher: Springer, Dordrecht

Year of Publication: 2014

Country of Publication: Netherlands

Format: Book Section

Material: CLT (Cross-Laminated Timber)

Application: Walls

Topic: Design and Systems
 Seismic

Keywords: Cyclic Loads
 Failure Mechanisms
 Energy Dissipation
 seismic behaviour

Language: English

Research Status: Complete

Series: Materials and Joints in Timber Structures

ISBN: 978-94-007-7811-5

Online Access: Payment Required
