

## Development of a Canadian Fire-Resistance Design Method for Massive Wood Members

<https://research.thinkwood.com/en/permalink/catalogue484>

Author: Dagenais, Christian  
Ranger, Lindsay

Year of Publication: 2014

Country of Publication: Canada

Format: Conference Paper

Material: Glulam (Glue-Laminated Timber)

Application: General Application

Topic: Design and Systems  
Fire

Keywords: National Building Code of Canada  
Canada  
Fire Resistance

Language: English

Conference: World Conference on Timber Engineering

Research Status: Complete

Notes: August 10-14, 2014, Quebec City, Canada

Summary:

The fire-resistance rating of a building element in an assembly has traditionally been assessed by subjecting a replicate of that assembly to the standard fire-resistance test ULC S101 in Canada, ASTM E119 in the USA and ISO 834 in most other countries. ...
