

Structural Response of Fire-Exposed Cross-Laminated Timber Beams under Sustained Loads

<https://research.thinkwood.com/en/permalink/catalogue1364>

Author: Lineham, Sean
Thomson, Daniel
Bartlett, Alastair
Bisby, Luke
Hadden, Rory

Publisher: ScienceDirect

Year of Publication: 2016

Country of Publication: Netherlands

Format: Journal Article

Material: CLT (Cross-Laminated Timber)

Application: Beams

Topic: Fire
Mechanical Properties

Keywords: Flexural Loading
Reduced Cross-Section Method
Zero-Strength Layer
Char Depth
Eurocode
Load Bearing Capacity
Deflection
Heat Flux

Language: English

Research Status: Complete

Series: Fire Safety Journal

Online Access: Free
