

FE Analysis of CLT Panel Subjected to Torsion and Verified by DIC

<https://research.thinkwood.com/en/permalink/catalogue485>

Author: Sebera, Václav
Muszynski, Lech
Tippner, Jan
Noyel, Melanie
Pisaneschi, Thomas
Sundberg, Benjamin

Publisher: Springer Netherlands

Year of Publication: 2013

Country of Publication: Netherlands

Format: Journal Article

Material: CLT (Cross-Laminated Timber)

Application: General Application

Topic: Mechanical Properties

Keywords: Finite Element Model
Torsion
Numerical model
Digital Image Correlation

Language: English

Research Status: Complete

Series: Materials and Structures

ISSN: 1871-6873

Online Access: Free
