

Numerical Study of Cross-Laminated Timber Under Fire

<https://research.thinkwood.com/en/permalink/catalogue2440>

Author: Wong, Bernice
Tee, Kong Fah
Yau, T. M.

Organization: Ramboll Fire
University of Greenwich

Year of Publication: 2019

Country of Publication: Russia

Format: Report

Material: CLT (Cross-Laminated Timber)

Application: Floors

Topic: Fire

Keywords: Panels
Finite Element Method (FEM)
Charring Rate
Finite Element (FE) Model

Language: English

Research Status: Complete

Series: International Seminar on Fire and Explosion Hazards

Online Access: Free
